Navigation and Data Exploration in the escWorks Texas Dashboard

Welcome to the Texas Dashboard

Powered by:

escWORKS®

About the TEXAS DASHBOARD | Standard 1 | Standard 2 | Standard 4 | Scorecard

About the Dashboard...

Texas Dashboard requires an HTML 5 compatible browser such as Chrome (the preferred choice), Firefox, or Internet Explorer 10 or higher

• How to Use the Dashboard

• How it Adds Up

ESC Standards and Indicators

• State Document

• Indicator Dictionary

• Dropdown Lists

About the Data...

The data within the escWorks Texas Dashboard is updated on a nightly basis. All data should be current as of 5:00 AM the day of viewing.

Helpful Information...

Please note: Revisions to the Texas Dashboard will be made in order to align with changes to the Standards and Indicators.

Have a question? Contact us at: helpdesk@esc4.net

1 - Logging In:

When designated users log in to escWorks, they should automatically be logged in to the Texas Dashboard as well. A link to the dashboard should appear in the left hand navigation pane of escWorks.

Evaluation Manager
District Dashboard
Bar Code Attendance
Batch Invoicing
Texas Dashboard
2 - Navigation:

The main methods of navigation within the dashboard are the **TABS** (across the top of the light blue screen) and the **scroll bars** (on the right side of the main page, and within the data window).

Clicking the name of a dashboard in the desired TAB will open the selected dashboard.

NEW FEATURE: Year Selector is now located within each tab of the Texas Dashboard. To view data from the current year or the prior year, simply select the appropriate 'Fiscal Year' button. The data will refresh to display that from the selected year:

1.2 - Technical Assistance - Postsecondary Credit

CONTACT HOURS (YEAR-TO-DATE)

288

1.2 - Technical Assistance - Postsecondary Credit

Department	Performance Index	Customers Assisted (Duplicate Count)	Contact Hours (Year-to-Date) ⌄

FILTERS

⌄ Fiscal Year

○ 2013-2014
○ 2014-2015
○ 2015-2016
◉ 2016-2017
○ 2017-2018

3 - Dashboard data organization:

Each dashboard is organized by standard, in numerical order. All data associated with a particular standard is grouped. For example, Standard 1.2:

The summary information is displayed at the top of the grouping, with tabular/supporting data below.
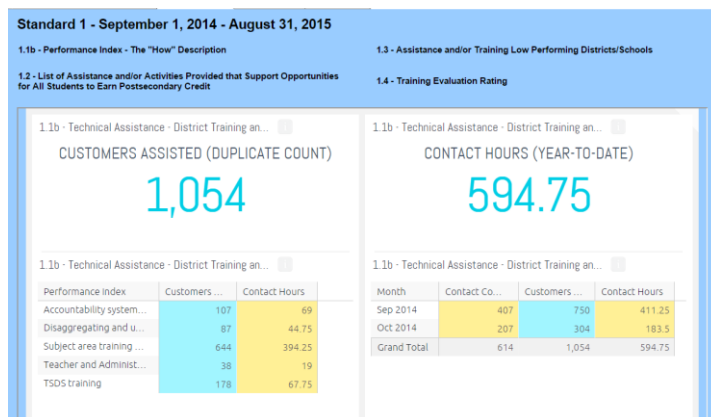

2 - **Drilling for Data:**

Drilling into data allows the user to explore the underlying information. For example, drilling into 'Accountability System Training' it can be determined which districts attended, which campuses attended, how many hours were awarded, the date(s) of the sessions, etc.

What can be **DRILLED** into?

Drilling into data is limited to the left hand columns of tables. There are five default drilldown choices. To drill down, right click on an item in the list and select the desired field:
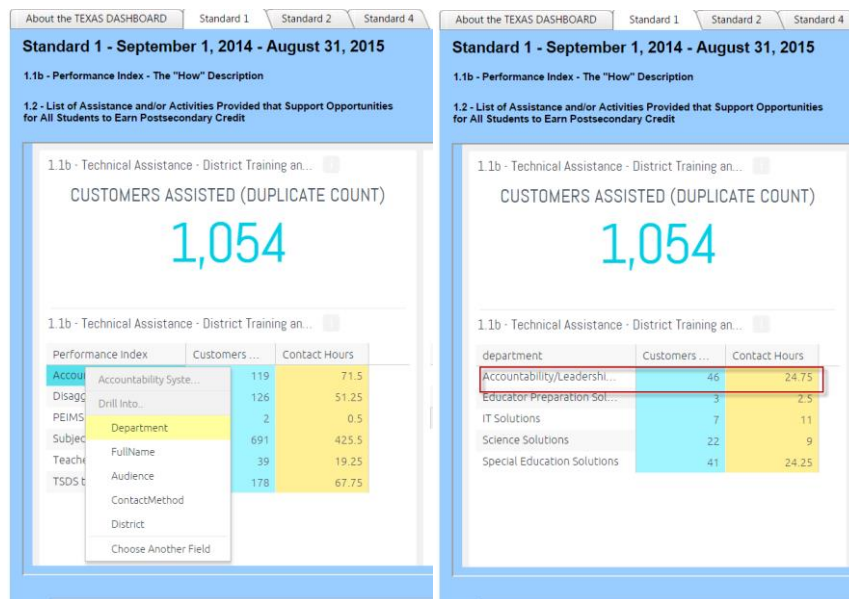

Figure 1 - Before Drilling   Figure 2 - After Drilling

In this case, from the table, Drill Into Department was chosen. The result is shown below: the Departments who provided Technical Assistance now appear in the list, along with the number of Contact Hours and the number of Customers Assisted.

Drilling into data works similarly in both Standard 1 and Standard 2 Dashboards.

Standard 4 - A Special Case -- the DASHBOARD FILTER

Standard 4 works in the same manner as Standards 1 and 2 with regard to drilling into data. However, because

Standard 4 requires reporting on various combinations of funding sources, etc., a **DASHBOARD FILTER** has been created.

This filter allows users to view the data as a whole, or to **filter the data in various combinations** such as Local Funding Only, Federal Funding Only, Local AND Federal Funding, etc.

The following describes how to use **DASHBOARD FILTERING** to see the desired results.

Let's begin by looking at the DASHBOARD FILTER. The filter should appear on the RIGHT HAND SIDE of the dashboard page**. If the filter is NOT seen**, click on the barely visible triangle in the upper right corner:

The filters should appear similar to this:
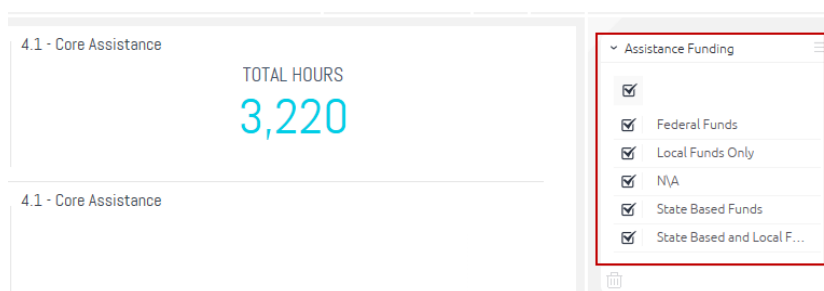

It is important to note that because Technical Assistance data and Professional Development data are collected separately, they are also reported separately.

To that end, the filters are labeled to help identify which filters impact which data widgets. For example, the "Assistance Funding" and "Assistance Audience" filters ONLY apply to the Core Assistance widgets. Similarly, the "Prof Dev" filters impact the "Professional Development" widgets.
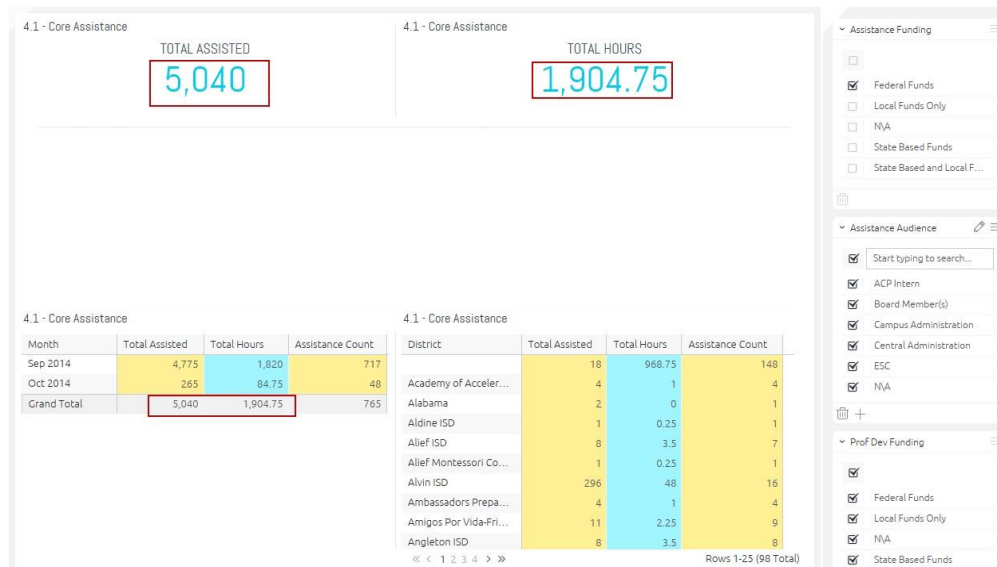

Examples of Dashboard Filtering -

Before Assistance Filters --
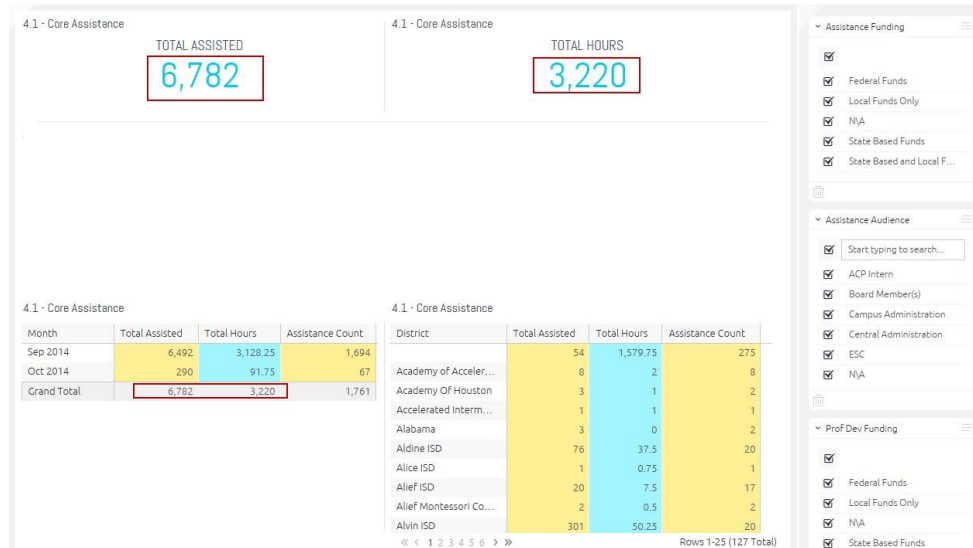

Filtered for Federal Funds only --

And Teachers only -- (Federally Funded Teachers only)
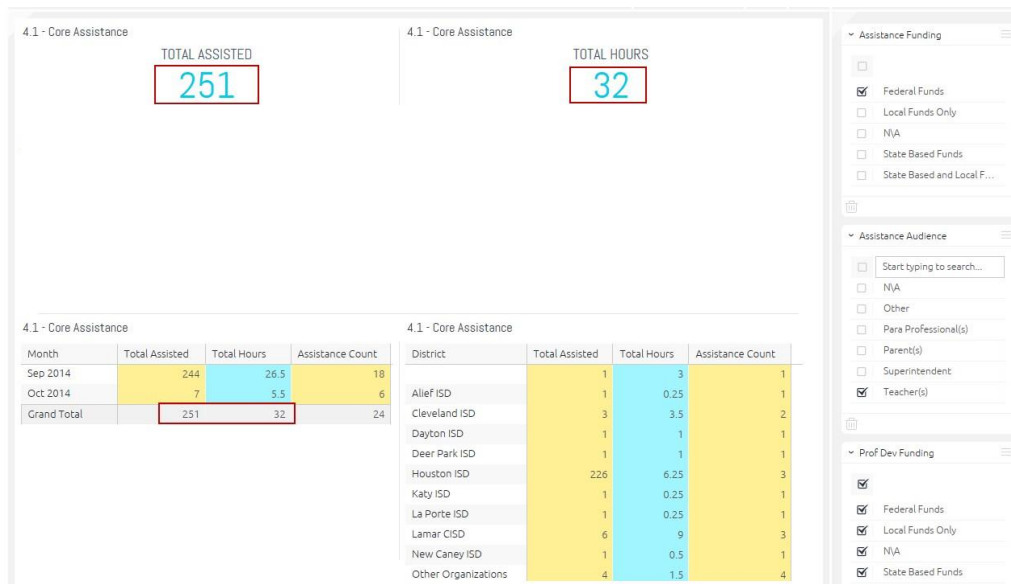

It is important to note that even after filtering, the data can STILL be DRILLED INTO --

So here we see which districts have Federally Funded, Teachers only receiving Technical Assistance, and can drill even further:

NEW FEATURE: 'Scorecard' tab –

Navigation and Data Exploration in the escWorks Dashboard

The new 'Scorecard' tab has been added to make reporting easier and faster as it relates to the 'Scorecard' entries.

The format of the Scorecard tab has been modeled after the Scorecard entry form.

To that end, data that is reported MONTHLY is located under the MONTHLY data section. Data reported QUARTERLY is located under the QUARTERLY section, and so on.

Additionally, quarterly, semiannual and annual data is now calculated as such.

MONTHLY example:

QUARTERLY example:

ANNUAL example:
